

**Amendments to the Drawings:**

The attached drawing sheet is to append to the existing drawing sheets and does not add new matter (see Remarks).

Attachments: New Drawing Sheet 11/11

**REMARKS/ARGUMENTS**

In the Office Action, the Examiner issued a restriction requirement between Group 1 (claim 1), Group 2 (claims 2-4), and Group 3 (claim 5). In response to this restriction requirement applicant elects Group 2.

The attached drawing sheet was filed with the application but was found to be omitted as indicated on the Notice to File Missing Parts mailed September 14, 2004. A petition was submitted on November 11, 2005 asking that this drawing be accepted as it was originally filed with the application. That petition was denied.

It is now requested that this drawing be entered into this application as an amendment to the present drawing set. This drawing does not constitute new matter as it is fully described in paragraphs 68 and 69 of the specification as originally filed and by the fact that this figure is identical to FIG. 7 set forth in the U.S. Provisional Patent Application No. 60/422,007 to which the present application claims benefit and which is incorporated by reference in the present application in paragraph 4 of the specification as originally filed.

If any questions should arise concerning this application or it would otherwise be useful to discuss this application, please do not hesitate to contact the undersigned by phone so as to expedite prosecution of this application.

Respectfully submitted,
